FOREWORD

This marks the 10th consecutive year we have come together to spend the day discussing “Practical Grazing Issues”. Over the past nine years we have rotated the conference between Bowling Green and Lexington. I am delighted to have the support, encouragement and assistance for this years’ conference here in Princeton. The program committee has assembled a great group of speakers covering a wide array of timely-practical topics relating to grazing in Kentucky.

I want to extend a special THANKS to all speakers and exhibitors. I also want to thank our Program Committee (Ray Smith, Tom Keene, Shane Bogle, Darian Irvan, Chris Milam, Darrell Simpson, Bill Talley, and Christi Forsythe). Special thanks to Christi Forsythe for handling all the details concerning program and proceedings.

My thanks to Don Sorrell, President of the Kentucky Forage & Grassland Council, Board of Directors and entire membership for their support and encouragement.

I do hope the discussions of the day will be of value to you and your grazing program.

Garry D. Lacefield
Program Chairman
